SUMMARY

Full Stack Developer building and deploying scalable web applications end-to-end with Next.js, React.js, TypeScript, Express.js, and PostgreSQL, from normalized RBAC schemas and REST APIs to interactive dashboards. Merged PRs in React, Next.js, and Spring Boot.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, Python, SQL
Frontend: React.js, Next.js (App Router), Tailwind CSS, TanStack Query, Recharts, Framer
Backend: Node.js, Express.js, Next.js Route Handlers, Spring Boot, REST APIs
Databases & Auth: PostgreSQL, Prisma, Drizzle ORM, JWT, Clerk, Zod
Tools: Git, GitHub, AWS, Vercel

OPEN SOURCE CONTRIBUTIONS

- **React** – Fixed transition events returning undefined fields; added regression tests — react/react #37985
- **Next.js** – Fixed create-next-app skipping setup commands for template-based projects — vercel/next.js #99769
- **three.js** – Fixed USDZ export of off-center orthographic cameras (aperture, offset) — mrdoob/three.js #35411
- **Spring Boot** – Fixed a self-comparing test assertion and inverted runtime-hints arguments — #52532 · #52618
- **Bootstrap, React Docs** – OTP input fixes (co-author); relative links in localized docs — #43252 · #8712

EXPERIENCE

Digilize Media **Nov 2025 – May 2026**
Frontend Developer Intern (New Delhi, India)

- Developed and optimized 5+ responsive production web applications utilizing React.js, Next.js, and TypeScript, reducing average page load times by 25% via server-side rendering and asset optimization.
- Engineered 20+ high-fidelity, interactive UI components and complex 3D animations using Framer and Three.js, accelerating future development cycles by 30% through a reusable component architecture.

Softpro India Computer Technologies Pvt. Ltd. **Aug 2024 – Sep 2024**
Java Intern (Remote)

- Developed Gyan Portal, a Spring Boot web app for assignment management, progress tracking, and student queries.
- Designed REST APIs for 500+ students and 50+ teachers; built during a 45-day industry training program.

PROJECTS

RepoLens – AI Code Intelligence Platform — Live | GitHub
Tech: *Next.js 14, TypeScript, PostgreSQL, Drizzle ORM, Groq, Clerk, Recharts*

- Architected a SaaS that audits GitHub repos via a 5-stage LLM pipeline and computes a weighted 0–100 quality score.
- Developed the analytics dashboard: Recharts score trends, issue breakdowns, Markdown export, and shareable links.
- Load-tested dashboard APIs on 2M seeded rows; four indexes raised throughput from 9 to 430 req/s (20 users).

TaskFlow – Task Management System — Live | GitHub
Tech: *Next.js 16, TypeScript, Express.js, Prisma, PostgreSQL, TanStack Query, Tailwind CSS*

- Developed the Next.js client with TanStack Query hooks that cache per filter and refetch after each mutation.
- Engineered server-side pagination, case-insensitive search, and status filters with central error handling.
- Issued 15-minute JWT access tokens and 7-day httpOnly refresh cookies, renewed via an Axios interceptor.

CrashLedger – Incident Management Platform — Live | GitHub
Tech: *Next.js 16, TypeScript, PostgreSQL, Drizzle ORM, Clerk, Zod*

- Modeled incidents as a state machine (open → investigating → resolved → archived) that rejects invalid moves.
- Designed a 10-table PostgreSQL schema with owner, admin, engineer, and viewer RBAC checks across API routes.
- Load-tested on 321K seeded incidents; an SQL aggregate and partial index cut p50 latency from 190 ms to 1.4 ms.

EDUCATION

Noida Institute of Engineering and Technology, Greater Noida **2021 – 2025**
B.Tech in Computer Science and Engineering | **CGPA: 8.97**

CERTIFICATIONS

- **Databases and SQL for Data Science with Python (Honors)** – IBM, Coursera (2023) | Verify
- **Introduction to NoSQL Databases** – IBM, Coursera (2023) | Verify

ACHIEVEMENTS

- 1st prize, Debug-A-Palooza at Ebullience-24, NIET's annual technical fest (2024)
- 580+ problems solved on LeetCode | Profile
- Completed Google Cloud Study Jam (2023) | Profile
